

Parametrlar:

- R (Ohm): 10
- L (H): 0.5
- Boshlang'ich i_0 (A): 0
- t_{max} (s): 5
- Nuqtalar soni n_t : 400
- $V(t)$ turi: step
- V_0 (V): 5
- freq (Hz, sinus uchun): 1

Xulosa:

RL zanjiri uchun vaqt doimiysi $\tau = L/R = 0.05$ s. Step kuchlanishda tok $i(t)$ eksponensial o'sadi/so'nadi.
